👤 Professional Profile

I am a Brazilian Computer Science student with a strong interest in data, machine learning, and generative AI. I also study Mandarin at the Confucius Institute. I am highly focused, detail-oriented, and committed to everything I do.

🏢 Professional Experience

Hackatruck

2023: *Project Participant*

Developed iOS applications as part of a month-long group project.

- Collaborated with team members to design and implement app functionalities.
- Used Swift, Node Red and Azure for development, handling various APIs.

Deeptera

2024 – Present: *Internship in Computing and Data*

Research and development related to Artificial Intelligence

🎓 Education

PUC Minas

2023 – Present: *Bachelor of Computer Science*

I have worked with various technologies at PUC and specialized in machine learning, data science, and AI technologies outside of college. I have completed projects involving real-world data and problem-solving.

Confucius Institute

2024 – Present: *Mandarin Student*

I study Mandarin out of a deep appreciation for the culture and its relevance to the field of AI.

⚙️ Key Technical Skills

- ✓ **Programming Languages:** Java, Python
- ✓ **Machine Learning:** PyTorch, Scikit-learn
- ✓ **Data Science:** Pandas, NumPy, Matplotlib, Seaborn
- ✓ **Databases:** PostgreSQL, MySQL
- ✓ **DevOps:** Docker
- ✓ **Version Control:** Git, GitHub

🌟 Certifications

- 🌟 Cloud Services Practices using Swift with emphasis on Cognitive Services
- 🌟 Algorithms and OOP with Swift, JavaScript, and RESTful APIs
- 🌟 Agriculture 4.0: Optimizing with Artificial Intelligence

🗣️ Languages

- 🌐 Portuguese - Native
- 🌐 English - Fluent
- 🌐 Mandarin - Basic
