Antonio Neto

💼 Computer Science Student

 nietus   ✉ antonio.couto@sga.pucminas.br   in antonioniet   🌐 website

👤 Professional Profile

I am a Brazilian Computer Science student with a great interest in machine learning, generative AI, automation, and motorsport. I am also studying Mandarin at the Confucius Institute. I am highly focused, detail-oriented, and committed to everything I do.

🏢 Professional Experience

Hackatruck   **2023:** *Project Participant*

Developed iOS applications as part of a month-long group project.

- Collaborated with team members to design and implement app functionalities.
- Used Swift and Node-Red for development, handling various APIs.

🎓 Education

PUC Minas   **2023 – Present:** *Bachelor of Computer Science*

I have worked with various technologies at PUC and specialized in machine learning, data science, and AI technologies outside of college. I have completed projects involving real-world data and problem-solving.

Confucius Institute   **2023 – Present:** *Mandarin Student*

I study Mandarin to gain cultural insights and enhance my understanding of AI through knowledge of the Chinese language.

⚙ Key Technical Skills

- ✔ **Programming Languages:** Java, Python
- ✔ **Machine Learning:** PyTorch, Scikit-learn
- ✔ **Data Science:** Pandas, NumPy, Matplotlib, Seaborn
- ✔ **Databases:** PostgreSQL, MySQL
- ✔ **DevOps:** Docker
- ✔ **Version Control:** Git, GitHub

✹ Certifications

- ❊ Cloud Services Practices using Swift with emphasis on Cognitive Services
- ❊ Algorithms and OOP with Swift, JavaScript, and RESTful APIs
- ❊ Agriculture 4.0: Optimizing with Artificial Intelligence

🔠 Languages

- 🌐 Portuguese - Native
- 🌐 English - Fluent
- 🌐 Mandarin - Basic
